SKILLS

Programming Languages

- Python, Java

Automation Tools

- Selenium, Appium

Testing Frameworks

- Pytest, TestNG, Cucumber, Playwright

Version Control Tool

- Github

CI/CD Tool

- Jenkins

Performance Testing Tool

- JMeter

Bug Management Tool

- Mantis

Project Management Tool

- Jira

EDUCATION

Bachelor of Engineering

Velammal College of Engineering and Technology

2016 - 2019

Diploma

Tamilnadu Polytechnic College

2013 - 2016

SSLC

Nehru Vidyasalai Hr.sec School

2012 - 2013

PROFILE

Collaborates with software team in continuous build and deployment process. Excels at learning new software tools and best practices in software quality assurance. Skilled in Python,Selenium,Appium and Java. Profound Knowledge in data integrity, UI & Test scripts. Looking for a job that boost my creativity

WORK EXPERIENCE

Associate Software Tester

Smiligence - Madurai

Dec 2021 - Nov 2023

- Involved in developing test plan, test strategies, test scenarios, test scripts and test steps based on Business and System Use Cases.
- Performed Functional tests using Selenium and Appium.
- Executed Selenium tests for automation testing of the web application using Selenium Web Driver.
- Executed automation testing of the web application in Mobile and Tablet using Appium.
- Wrote highly efficient and maintainable Python and Java code to develop Page Objects using the Pytest,TestNG Framework.
- Used automation framework in Selenium WebDriver using behavior driven approach like Cucumber.
- Performed Smoke, Functional, Regression and Integration testing.
- Participated in Stand-up meeting, walkthrough meeting, weekly automation meeting with all other QA, weekly assessment meetings with business analysts and developers

Software Tester

Lebynd - Dindigul

Jan 2024 - Present

- Collaborated with QA team to test software quality through manual and automated testing.
- Optimized test cases to maximize success of manual software testing.
- Coordinated work with various teams to solve problems and improve efficiency for software testing and automation.
- Developed, implemented and maintained automated testware for scripts, functions and programs to boost testing efficiency.
- Monitored resolution of bugs, tested fixes and helped developers tackle ongoing problems by providing QA perspective.

CERTIFICATIONS

Completed Python Certified Course

3 Months

G - Tec Madurai

WORKING PROJECTS

E-COMMERCE APPLICATION AND WEBSITE

Role: Associate Tester

Responsibilities:

- Involved in developing test plan, test strategies, test scenarios, test scripts and test steps based on Business and System Use Cases.
- Performed Functional tests using Selenium and Appium.
- Executed Selenium tests for automation testing of the web application using Selenium WebDriver. Executed automation testing of the web application in Mobile and Tablet using Appium.
- Wrote highly efficient and maintainable Python code to develop Page Objects using the Selenium Framework.
- Used automation framework in Selenium WebDriver using behavior driven approach like Pytest. Used XPath and DOM to work with dynamic and static objects in Selenium.
- Performed Smoke, Functional, Regression and Integration testing.
- Participated in Stand-up meeting, walkthrough meeting, weekly automation meeting with all other QA, weekly assessment meetings with business analysts and developers.

E-COMMERCE APPLICATION AND WEBSITE

Role: Associate Tester

Responsibilities:

- Collaborate with project managers, developers, and other stakeholders to understand the projectscope, requirements, and objectives. Create a comprehensive test plan that outlines the testing approach, test objectives, testing scope, and resources required.
 - Develop detailed test cases based on the functional and non-functional requirements of the HMSwebsite.
 - Execute test cases manually or, if applicable, automate test scripts using testing tools such as Selenium.
 - Record and report defects, providing clear and detailed information about the issues encountered. Validate that all website functions, such as patient registration, appointment scheduling, billing, and access to electronic health records (EHR), work as intended.
 - Conduct performance testing to evaluate the website's speed, responsiveness, and scalability. Continuously perform regression testing to ensure that new updates or changes do not introduce new defects or impact existing functionality.
 - Maintain detailed documentation of test plans, test cases, test data, and defect reports.
 - Collaborate closely with developers, product managers, and other team members to resolve issues and ensure that the website meets quality standards
-
